Kell House– Whole House Museum Wichita Falls, Texas

In 1980, the Wichita County Heritage Society purchased the Kell House to be opened to the public as an Historical Whole House Museum. Our firm worked with the WCHS in developing a master-plan for restoration and renovation.

In 1991 the complete restoration and renovation of the Kell House Carriage House was done by our firm and several projects have continued over the years. We continue to work with this client to follow the original plan, in maintaining Kell House as a true Whole House Museum
