Estes Incorporated Wichita Falls, Texas

Estes, Inc. is a wholesale distributor of Agricultural, Aquatic, Pest Control, Industrial, Turf and Ornamentals chemicals. Founded in 1957 by Linton (Pete) Estes. They are a family-owned corporation that has grown to include locations across three states.

Since 1983, BYSP has completed numerous projects for all twelve of the Estes, Inc. sites across Texas, Oklahoma, and Arkansas. The projects have varied from new warehouse designs to remodel or expansions of existing facilities, roof repairs, color/finish selections and specific needs. For example, in 1998 we designed a specialized seed storage area for the Paris, Texas facility. All of these warehouse facilities have a dock area, sales floor area with sales counter, office space and restrooms.
